Tim Oelker

**MY UNIVERSAL DESIGN statement**

Universally designed products, services and architectures have a positive impact on society: they include people of all ages and origins, with and without handicaps.

**recommended: UNIVERSAL DESIGN**

Product: STUX, Design for the other 90 percent
Designer: Ilona Rubinstein, University of Hannover

**UNIVERSAL DESIGN statement**

Design of modular seating furniture with a built-in desk for schools in developing countries. This chair/desk combination features simple wooden sockets, eliminating the need for screws. A set of instructions is all users need to assemble the furniture directly on location.

Product: Water purifier, Design for the other 90 percent
Designer: Ebru Durmaz, University of Hannover

**UNIVERSAL DESIGN statement**

Drinking water is essential to the survival of people around the world. Ebru Durmaz has designed a product concept to address this need. A kettle with a built-in filter makes it possible to produce as much safe drinking water as necessary.

**MY UNIVERSAL DESIGN statement**

What do children in orphanages need? How can we give them a modicum of privacy? Lucia Francia has designed several pieces of furniture that make it possible for users to seclude themselves from others and store personal items while facilitating communication.

**UNIVERSAL DESIGN statement**

**Product:** Furniture for orphanages,
**Design for the other 90 percent**
**Designer:** Lucia Francia, University of Hannover
